HEAR MORE ON THE IMPACT OF COVID-19 ON REGIONAL AND COUNTRY PROGRESS AND GLOBAL ENAP RESPONSE TOWARDS ENDING PREVENTABLE NEWBORN DEATHS AND STILLBIRTHS

© UNICEF/UNIG16681/ Frank Dejongh

Without intentional efforts to mitigate the impact of COVID-19 on MNH services, countries stand to lose the hard-won gains made in recent years. This marketplace session will provide a dynamic and engaging discussion from global and regional maternal and newborn health experts working on the COVID-19 response. The aim of this session will be to reflect on the impact that COVID-19 has had on maternal and newborn health in the highest burden settings, to share learnings and best practice in the response, and to discuss next steps and planned activities in coming months. The session is a demonstration of collaborations between multiple partners through the Every Newborn movement.
