Volume 144, Supplement 1, February 2019

Expanding Maternal and Neonatal Survival Opportunities in Indonesia

Guest Editor: Saifuddin Ahmed
Managing Editor: Judith Fullerton
IJGO Supplement Editor: Timothy R.B. Johnson

This supplement is made possible by the generous support of the American people through the United States Agency for International Development (USAID) under the terms of the Cooperative Agreement AID-OAA-A-14-00028. The contents are the responsibility of the Maternal and Child Survival Program and do not necessarily reflect the views of USAID or the United States Government.

Photo: Dr Yanti Azis holds a newborn baby in the Cibeber Health Center, in Banten, Indonesia. Dr Azis improved her skills and her confidence in basic emergency obstetric and newborn care as a result of mentoring by the Expanding Maternal and Neonatal Survival program, which was funded by the USAID. © MCSP/Syane Luntungan.

INTERNATIONAL JOURNAL OF GYNECOLOGY & OBSTETRICS accepts articles for Open Access publication. Please visit <https://authorservices.wiley.com/author-resources/Journal-Authors/open-access/onlineopen.html> for further information about OnlineOpen.

SUMMARY OF AUTHOR GUIDELINES

(Full guidelines are available online at [http://obgyn.onlinelibrary.wiley.com/hub/journal/10.1002/\(ISSN\)1879-3479/about/author-guidelines.html](http://obgyn.onlinelibrary.wiley.com/hub/journal/10.1002/(ISSN)1879-3479/about/author-guidelines.html))

INTRODUCTION

Only original manuscripts that are submitted exclusively to IJGO will be considered for publication. The requirements of IJGO are in accordance with the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" published by the International Committee of Medical Journal Editors (ICMJE). Editorial processes will adhere to the Committee of Publication Ethics guidelines.

SUBMISSION

IJGO will consider for publication unsolicited submissions of the following: Clinical Articles; Review Articles; and Brief Communications (including Case Reports). All manuscripts should be prepared according to the author guidelines available online. Manuscripts are submitted to the journal via the online service Editorial Manager (www.editorialmanager.com/IJG). Authors must first register for an account on Editorial Manager, ensuring that the details provided for the corresponding author are up-to-date so that all manuscript status notifications are successfully received. Authors can check the status of their manuscript during the review process by logging into Editorial Manager. Queries relating to the submission process or to journal procedures can be directed to the editorial office at ijgo@figo.org.

JOURNAL REQUIREMENTS

Studies of patients, patient records, or volunteers require Ethics Committee approval and informed consent. In compliance with ICMJE requirements, all clinical trials must be prospectively registered in a public trials registry. Purely observational studies (those in which the assignment of the medical intervention is not at the discretion of the investigator) will not require registration. Authors wishing to use material that has already been published must first obtain the permission of the copyright holder(s). Authors will be expected to provide the relevant documentation on request.

LAYOUT OF MANUSCRIPTS

Please refer to the online instructions for full details on how to structure your manuscript. All submissions must be accompanied by a cover letter addressed to the Editor. The first page of the manuscript should contain the following: (1) title; (2) full names of authors; (3) affiliations of authors; (4) full contact details of the corresponding author; (5) a list of up to 8 keywords for indexing and retrieval; (6) a brief synopsis.

Clinical Articles and Review Articles require an abstract of 200 words or fewer; Brief Communications do not require an abstract. Full length articles should be structured with the following headings: Introduction; Materials and methods; Results; Discussion; Author contributions; Acknowledgments; Conflicts of interest; and References. Brief Communications do not require headings for the main text, but should include the following sections: Author contributions; Acknowledgments; Conflicts of interest; and References. Tables, figures, and supporting information may also be submitted.

MANUSCRIPT CONTENTS

Where appropriate, statements on clinical trial registration, Ethics Committee approval, and informed consent should be included in the manuscript. Details of any statistical analysis conducted should be given in the methods. In line with ICMJE standards, author contributions must be listed and a conflicts of interest statement be made. References should be presented as per the journal's style. The editors reserve the right to make any necessary editorial changes.

LICENSING

On acceptance, authors have the option of publishing their manuscript under the terms of the journal's standard copyright transfer agreement, or under open access terms made available via Wiley OnlineOpen.
