Family Centered Care
Challenges & Opportunities
Care of the Small and Sick Newborn Community of Practice
Quick recap on the first webinar

June 24, 2020

❖ Topic: Family Centered Care to Improve Newborn Survival and Developmental Outcomes

❖ Followed the release of chapter 4 on “Ensure they Thrive” from the Survive, Thrive and Transform report

❖ Panelists: Selina Bentoom, Arti Maria, Linda Frank
Objectives

❖ Bring together experts and practitioners from across countries to discuss challenges on selected themes for implementing Family Centered Care

❖ Share experiences and discuss pragmatic solutions / actions that countries can take during the current scenario
Selected themes for provision of family centered care

- Partnership between providers and families for inpatient care of small and sick newborns – acceptance and motivation
  - Facilitator: Nathalie Charpak
  - Co-Facilitator: Goldy Mazia

- Infection prevention within sick newborn units
  - Facilitator: Robert Dreibelbis
  - Co-Facilitator: Steve Sara

- Conducive infrastructure and commodities for provision of family centered care
  - Facilitator: Queen Dube
  - Co-Facilitator: Steve Wall
Break-out room dynamics

(30 minutes)

❖ Facilitators will briefly introduce the theme, share expected deliverables from group work and support conversations, monitor chat box for inputs, ensure capture of notes and summarize for presentation in plenary
❖ Select rapporteur for presentation back in plenary
❖ Report out time 3-4 minutes
❖ Note-taker will draft slides to support rapporteur’s presentation
❖ As you come back to the plenary – please respond to the poll questions. This is your platform and we want your inputs in shaping it further
Thank you and Good-bye

Stay safe and well

Until we reconvene again!
