

## WHAT IS HNN?

The Healthy Newborn Network (HNN) is an online community dedicated to addressing critical knowledge gaps in newborn health. HNN is a platform for organizations and professionals to exchange experiences; disseminate information; and increase coordination, collaboration and co-generation of knowledge to advance newborn health.

---

## BENEFITS OF JOINING

### Get the Latest

- › Download publications, tools and guidelines from the HNN resource library
- › Find global, national and regional data related to newborn health
- › Stay up to date through the HNN news library and e-updates

### Share Your Knowledge

- › Participate and contribute to online conversations
- › Share lessons learned from country and global activities
- › Become a newborn health blogger

### Expand Your Reach

- › Join as an HNN Partner Organization and feature your newborn health programs
  - › Upload your resources and publications, including photos, audio and videos
  - › Participate in Global Moments and online campaigns
-
